

## Rolling Conveyances

*dragkärra* – cart (pulled by a person)

*kärra* – cart (pulled by an animal)

*höskrinda* – hay wagon

Basically all rolling conveyances were called *vagn*, but there were many distinct names and many modifiers added to the basic words. In the *BP* researched for this dictionary this is what was found. Note that names and spellings vary with time, place, and writer and this info is NOT exhaustive. Three key subgroups of *vagn* are *kärra*, *skrinda*, and *vagn*. To illustrate, the top row is examples of *kärra*, this row is *skrinda*, and the bottom row is *vagn*. As you can see, *kärra* is a light conveyance, *skrinda* is somewhat heavier, and *vagn* includes carriages and robust wagons.

*åkvagn, trilla* - carriage

*planvagn, flakvagn* – flatbed wagon
